THE 2600KL

DIGITAL WHEELCHAIR SINGLE RAMP SCALE

THE 2610KL

DIGITAL WHEELCHAIR DUAL RAMP SCALE

The all-digital 2600KL is our most popular wheelchair scale that supports up to 1000 pounds and provides the optimum in quality, reliability, and ease of use. The platform folds for convenient storage and the casters (the only scale in the market that has them!) provide easy mobility. The wide and low profile platform accommodates wheelchairs and provides a comfortable weighing experience for patients. For easy on/off access the 2610KL offers dual ramps. Designed to meet the needs of doctor's offices, hospitals, clinics, and acute and long-term care facilities, the scale features a display head that swivels 180 °.

The scale's high-contrast color screen provides a user friendly interface that includes BMI, hold/release, reweigh, recall, zero, KG/LB, tare, pre-tare and more. The exclusive Everlock® function allows the measuring unit (LB or KG) to be permanently locked on the scale. The scale provides easy integration and seamless communication with today's EMR applications, the 2600KL and 2610KL include a USB interface for connectivity with a computer, EMR software, or other electronic devices via various Health o meter® Professional Connectivity Solutions.
