

# Incontinence care

# Now you really can **have it all**

Clinicians can have the product quality they want. You can have the savings you need. And patients, the dignity they deserve. It doesn't have to be complicated.

# Collaboration is key

To combat the effects of incontinence, we work closely with clinicians. Listening to their concerns and ideas about the products that can help solve their problems. Guided by that perspective, we develop new, advanced technologies. And a simplified set of products to help you save as you care for incontinence.

## **Put advanced technology to work for you**

Guided by experienced hands — yours to deliver care, ours to deliver the most effective solutions — our products deliver the most effective solutions. Together, we can lessen the effects of incontinence on your patients' quality of life, as well as your organization's bottom line.

Our advanced technology features:

- A nonwoven hydrophilic layer that is soft and durable
- Super absorbent polymer (SAP) to draw fluid away from the skin, locking it in the product's core
- An advanced core design that improves absorption rates and skin dryness

# Choosing the right products

Product	Absorbency	Indication for use
 <p><b>Briefs</b></p>	Moderate Heavy Extra Heavy Maximum Night-Time	<ul style="list-style-type: none"> <li>• Severe urinary output or drainage</li> <li>• Loss of bowel control</li> </ul>
 <p><b>Underwear</b></p>	Moderate Heavy Extra Heavy Maximum	<ul style="list-style-type: none"> <li>• Moderate to severe urinary output</li> <li>• Loss of bowel control</li> </ul>
 <p><b>Knit and mesh pants</b></p>		<ul style="list-style-type: none"> <li>• Short-term use</li> <li>• Hold liners in place</li> </ul>
 <p><b>Insert pads</b></p>	Moderate Heavy Maximum	<ul style="list-style-type: none"> <li>• Light to moderate urinary output</li> </ul>
