GAMMEX® Non-Latex PI Green

SURGICAL GLOVES

Soft, skin-friendly polyisoprene surgical gloves, for allergy protection and superb comfort

- **Reliable allergy protection:** Made from synthetic polymers, using these sterile polyisoprene (PI) gloves eliminates Type I latex allergy risks while ZMBT, DPG and CPC* are not used to protect wearers from these known allergens
- **Superior comfort and dexterity:** Their soft yet strong formulation ensures wearers benefit from exceptional fit and feel
- **Excellent grip and sensitivity:** A smooth surface with a micro-textured finish offers the wearer secure handling and instrument grip during the most rigorous procedures
- **Effortless donning and doffing:** Their unique internal coating facilitates both dry and damp hand donning, either when first donned or during intra-operative changes
- **Chemo-tested:** Tested to ASTM D6978, these GAMMEX® gloves are safe to use with a wide range of chemotherapy drugs**

**Free from natural rubber latex proteins and do not contain Zinc 2-mercaptobenzothiazole (ZMBT), Diphenylguanidine (DPG) and cetylpyridinium chloride (CPC)*

***Contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations*

Recommended For

- All surgeries, especially high risk procedures in orthopaedics, trauma, and cardiac
- Tested for use with chemotherapy drugs

GAMMEX®
Innovation that Protects

Driven by innovation, GAMMEX® surgical gloves are engineered to respond to the evolving user needs of the surgical community. Featuring unique formulations and cutting-edge technologies, ergonomic comfort and superior protection, healthcare workers around the world entrust their hands to ours.
