**Product Features:**

|                                                               |                                                                                                                                                          |
|---------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| General purpose healthcare refrigerator made in North America | All-refrigerator designed to operate between 2 and 8°C for a variety of storage applications including cold packs, laboratory specimens, and medications |
| Temperature Range: 2° and 8°C                                 | Preset to 5°C as recommended for most items stored in general purpose applications                                                                       |
| TAA compliant                                                 | Ideal for GSA contracts and other applications requiring a unit to have been manufactured in a TAA designated country                                    |
| Glass door                                                    | Tempered glass door provides heat-safe view of interior contents                                                                                         |
| Self-closing door                                             | Door automatically closes if left ajar to help protect items in high traffic settings                                                                    |
| Factory-installed lock                                        | Keyed lock for a secure interior (2 keys included)                                                                                                       |
| Casters included                                              | Pre-installed wheels allow you to easily move the unit as needed and lock into place with the front brakes                                               |
| Pocket handle                                                 | Handle recessed in the side of the door for more efficiency in crowded facility settings                                                                 |
| Fan-cooled interior                                           | Powerful fan-forced cooling to ensure fast temperature recovery                                                                                          |
