

# ARS8PV-FS24LSTACKMED2

73.5" x 23.38" x 24.38" (H x W x D)

Stacked combination of ARS8PV all-refrigerator with antimicrobial silver-ion handle and hospital grade cord with 'green dot' plug and FS24LMED2 compact manual defrost all-freezer for vaccine storage

## Highlights:

Independent refrigerator and freezer storage in one slim-fitting footprint for space-challenged facilities

Intelligent microprocessor digital temperature controller for optimum temperature management

Improved temperature accuracy with a separate temperature probe for continuous product readout to simulate stored product temperature

## Product Features:

|                                                       |                                                                                                                                                                                      |

| Space-saving design                                   | Allows you to create a full refrigerator-freezer with independent controls in a slim-fitting footprint                                                                               |
| Easy assembly                                         | Unit ships in three boxes for customer to install the StackRack on the bottom refrigerator/freezer and place and secure the other unit on top                                        |
| Purpose-built design                                  | Designed and purpose-built for pharmacy, medication, and vaccine applications to support meeting CDC/VFC guidelines                                                                  |
| Antimicrobial silver ion-coated handle (refrigerator) | Powder-coated handle with naturally occurring silver ions to help reduce germ spread                                                                                                 |
| +/-1°C Variation (refrigerator)                       | The published temperature variation is derived from the maximum deviation of an NTC sensor in a 1 oz. vial located nearest the chamber geometric center during a 24 hour test period |
| Adjustable temperature                                | Intuitive controls let you adjust the interior temperature between +2 to +8°C (refrigerator) and -20° to -15°C (freezer)                                                             |
| Temperature alarms                                    | Visual and audible alarms alert if the interior temperature rises or falls out of set range                                                                                          |
| Remote alarm contacts (refrigerator)                  | Electronic controller is equipped with a volt-free contact for alarm forwarding to an external remote system (contacts located in the external rear of the unit)                     |
