Browse and select patient from nasiff_reports folder

Fill in the fields and select "Import Items"

The image illustrates the process of importing a patient report into the amazingcharts EMR interface. It consists of three overlapping screenshots:

- Top Screenshot:** A file explorer window showing the 'nasiff_reports' folder. A file named 'ACHART, JAMES_123456789_5-9-2012_11:59 AM Adobe Ac' is selected. An arrow points from the text 'Browse and select patient from nasiff_reports folder' to this file.
- Middle Screenshot:** The 'Import Item(s) To Chart' dialog box. The 'Import Item(s) Listed Above' section shows the file 'C:\nasiff_reports\ACHART, JAMES_123456789_5-9-2012_r0_STECG.pdf'. The 'Item Date' is set to '5/4/2012', 'Item Type' is 'Other', and 'In Subject' is 'STRESS TEST REPORT'. The 'Import Items' button is highlighted with a blue box. An arrow points from the text 'Fill in the fields and select "Import Items"' to this button.
- Bottom Screenshot:** The main patient record view for 'ACHART, JAMES (DOB: 1/3/1954; ID: 2575) 58 year old man'. The 'Imported Items' tab is active, showing the imported ECG report. The report includes patient information, a list of medications, and a detailed ECG tracing. An arrow points from the text 'View Nasiff ECG report in amazingcharts' to the ECG tracing.
