

Protekt® Bariatric Two-Button Folding Walker

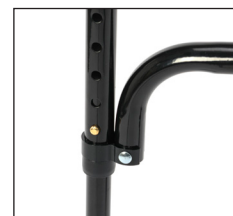

The **Protekt® Bariatric Two-Button Folding Walkers** provide maximum strength and durability for the larger individual. This walker is an ideal and dependable solution for those who require a supportive yet durable aid for their daily activities. The easy-to-use push button mechanism allows for opening and closing with the user's fingers or palms. The walker's height can be adjusted with a tool-free push button, providing additional stability. Available with or without 5" wheels and in junior or adult sizes. Supports patient weights up to 500 pounds.
