

Cryotherapy V

Greater precision, lower cost

You need more than an effective product for treating benign lesions like skin tags, common warts, plantar warts, age spots and sunspots. You need one that does the job efficiently.

The benefits of Cryotherapy V include:

- Six dosing cones with splash guards; supply buds included
- Secure-fitting round and arrow-shaped buds
- Organized reusable treatment kit
- Touch-sensitive actuator for enhanced precision
- -70°C treatment temperature
- Replacement products sold separately

Easily convert to Cryotherapy V from Verruca-Freeze®
