Janibell® M400S

15 Gallon

Built for endurance and volume. The M400S has a front facing, hands-free pedal operated swing door.

Janibell® M400B

15 Gallon

The top load M400B has a lower profile. The pedal operated door quickly swings up.

Janibell® M280B

6 Gallon

The smaller M280B has a top load door that is also pedal operated. Perfect for smaller locations.

Optional Safe Lock System Available

For more information, please visit: www.janibell.com

1

Open front door and pull out bag

2

Cut liner on door mount cutter

3

Create a new liner by tying a new knot

The continuous liners is the root of the Janibell® revolution. The liner comes in a single pre-packed accordion-folded roll that is up to 100 feet long. When the bottom of the liner is tied off, a new bag is formed. No more wasted bag liners. You use only what you need.

BIODEGRADABLE

Janibell® liners are flexible, strong, tear resistant, and environmentally friendly.

Liner material is 100% biodegradable in either landfill and compost.

Janibell M400S

15 Gallon

Ideal for workplace rooms or restrooms, the large M400S, secure with a Safe-Lock door, has a hands free, foot-pedal operated swing top for easy step and drop, hygienic disposal.

Janibell M400B

15 Gallon

This sturdy, large size unit with a lower profile works well in busy work areas where endurance and extra volume are needed. Top lid operates hands-free. Trash removal is quick and easy.

Janibell M330B

11 Gallon

The attractive M330B, our all time favorite model, is perfect for the individual work station and in any area with lighter volume requirements. The enclosed Janibell design has no trash bag overhang.

Janibell M280B

6 Gallon

Our compact Janibell is ideal where space or use volume is limited. Although smaller in size, the M280B gives you the same feature as all other models: Clean design, Hygienic operation, and Quick and easy trash removal.

Janibell® Disposal System

Child Care and Nursing Care Solution

Janibell M400D

Enjoy an Odor-free, Hands-free, Easy, Hygienic Working Environment

Dealing with smelly diapers is a difficult job. The Janibell® M400D with a double-sealing system locks odors inside the container where they belong. Once soiled diapers are dropped into the M400D, users never again see, smell, or touch the contents. The over all result is a cleaner, healthier and odor-free workplace.
