

FINGERTIP PULSE OXIMETERS

Dynarex Resp-O₂™ Fingertip Pulse Oximeters are high-quality devices designed to efficiently measure pulse rate (PR) and blood oxygenation levels (SpO₂). The Fingertip Pulse Oximeters are available in adult and pediatric sizes for optimal comfort. These reusable Oximeters are constructed from durable plastic materials for optimal reliability.

- Designed to provide effective measurement of pulse rate and blood oxygenation levels
- Large font display allows for accurate reading
- Constructed from durable materials for reliable performance
- Includes convenient lanyard for easy portability
- Not made with natural rubber latex or DEHP
