

PREMIUM LIQUID URINE CONTROLS

McKesson Consult® Premium Liquid Urine Control is a ready-to-use, liquid control for use in the clinical laboratory for qualitative and semi-quantitative routine urinalysis procedures. With assay values provided for the most common reagent strips and urinalysis systems, the McKesson Consult® Premium Liquid Urine Control is available in a dropper configuration for chemical analysis as well as diptube and bottle configurations for chemical and microscopic sediment analysis. For in vitro diagnostic use only.

FEATURES AND BENEFITS

- Ready-to-use liquid control
- For qualitative and semi-quantitative procedures used in routine urinalysis
- Available in dropper, diptube or bottle style
- Not made with natural rubber latex
